**LETTER OF ENDORSEMENT**

To Whom it May Concern,

In our capacity as Technical Committee' Work Group of Experts who developed ISO 21001 and validated the annex with the correlation between its requirements and the EQAVET criteria, we are writing regarding the research project **EQAVET+ "A standardized practical toolkit to implement the European Quality Assurance Framework for Vocational Education and Training"** and we would like to express our support for this project and our conviction that this applied research will be worthwhile.

Supporting this project means the ISO/PC288WG1 will contribute to development and the dissemination and exploitation of the project intellectual outputs by:

- Providing input knowledge for the validation of the rules for the accredited certification scheme (IO3);
- Providing input knowledge for the validation of the EQAVET+ Toolkit (IO5);
- Disseminating the outputs of the project through their professional networks and media channels across the globe.

Sincerely,

A handwritten signature in black ink, appearing to read 'Sandra Feliciano', with a small flourish at the end.

Sandra Feliciano
